We Empower Young Storytellers Through Writing

Come join us in this casual hour-long format where we explore our imaginations through hands-on creative writing activities and games. We'll conjure heroes, villains, outrageous characters, and far away worlds. We'll invent new words and steal some from our favorite stories to make our own poems. We'll practice freewriting and even learn how to create a scene for a TV show. In our workshops, there are no grades, only your words and the page!
